---

PROFESSIONAL SUMMARY

Cybersecurity and AI enthusiast with hands-on experience in ML-driven threat monitoring, secure code protection, and scientific AI research. Skilled in building real-world impactful systems through ethical and scalable intelligent tech.

PROFESSIONAL EXPERIENCE

AI & Cybersecurity Intern — Cybrainyx Technologies & Nagpur Police | Jun 2025 – Dec 2025
- Worked on Garuda Drishti, a law-enforcement cyber threat intelligence solution.
- Automated detection of radicalized content across major platforms.
- Reduced manual review workload by integrating ML signals with analytics dashboards.

PROJECTS

Cyber Threat Monitoring Dashboard (2025)
- Detects cyber threats and malicious content through real-time signal processing and topic modeling.

Galaxy Morphology Classification & Evolution Modelling (2025)
- Deep CNNs + VAE achieving 89%+ accuracy on Galaxy Zoo dataset.
- Modeled long-term galaxy evolution using Physics-Informed Neural Networks.

LLVM Obfuscator for Secure Object Files — NTRO Project (2025)
- Designed compiler-integrated obfuscation with encrypted strings and bogus code insertion.
- Prevents reverse engineering and intellectual-property extraction.

PQC + HE in Chat App (2025)
- A hybrid secure messaging system that preserves end-to-end privacy while addressing future quantum threats
- The project uses ML-KEM-1024 from the liboqs library for post-quantum key exchange and TenSEAL for implementing homomorphic encryption to perform privacy-preserving server-side computations.

EDUCATION

B.Tech in Computer Science & Engineering (Cybersecurity , IoT including blockchain technology)
VIIT Pune | 2023 – 2027 | CPI: 8.13
HSC — CBSE | Royal Gondwana Public School, Nagpur | 2023 | 74.8%
SSC — CBSE | Modern School, Nagpur | 2021 | 93.2%

SKILLS

- Programming: Python, Java, C/C++, SQL, HTML, CSS, JavaScript
- Cybersecurity: Threat Intelligence, Obfuscation, Pentesting basics, Reverse Engineering
- AI/ML: TensorFlow, Keras, Scikit-learn, LangChain, OpenAI APIs , LLM
- Tools: Git, Firebase, MySQL, Tableau, Power BI, VS Code , MongoDB

AWARDS & HACKATHONS

- IIT Jammu Techpreneur – 2nd / 800+ teams
- IIT Guwahati Convolve AI/ML – Rank 30 / 4200 teams
- BITS Pilani APOGEE – Top 5 Finalists
- DTU EHAX CTF – Top 11 finalists

CERTIFICATIONS

- **Certified Red Team Analyst (CRTA)** — Cyberwarfare Labs | Feb 2026 | Credential ID: 698fca7d398414f740f4ee5c
- **Google Cybersecurity Professional Certificate** — Google (Coursera) | Jan 2025 | Credential ID: NKMF6EHTEZ5L
- **CCNA: Switching, Routing, and Wireless Essentials** — Cisco | Jul 2025 | Credential ID: d0b05b07-9069-414e-8c63-ace81cae57b5
- **CCNA: Introduction to Networks** — Cisco | Feb 2025 | Credential ID: 2f475a9d-ca4b-430e-8075-66bb2787d17b
- **Introduction to Cybersecurity** — Cisco | May 2024 | Credential ID: 7ee1b994-b02d-4920-9f49-1eb67aca2ee3
